Squankum Road
Farmingdale, New Jersey 07727

Dear Sir:

I have your letter of March 13, 1970, in which you inquire about certain vehicles being checked during the time and following the assassination of President Kennedy in Dallas.

We are unable to find, in our records or in the records of the city police department, any information that you desire on the four vehicles that were requested to be checked by the radio station. This is where the Warren Commission got this information I'm sure. Evidently, the vehicles were not found or checked at the time.

I am sorry that I can be of no more help to you regarding this situation.

Yours very truly,

J. Guy Smith
